Dear Ms. Hesse:

The economy is in recession. Our country is at war with terrorism. Yet, we are still dealing with this anti-trust case against Microsoft. Let's get our priorities in order.

I am glad to see that the government has found a way to settle this case and allow Microsoft to get back to work doing what it does best. Microsoft's influence on our economy is great and putting this case behind it will allow them to be the national leader they are and stimulate this economy with new and innovative products at affordable prices for consumers.

Settlement of this case is best for our country, the world economy, the tech industry and individual consumers. I hope that this case is wrapped up soon.

Thanks.

Respectfully, .
